To Whom it May Concern

We have been using NZ Document Destruction Service for the last 3 years and have always been supplied with a prompt and professional service.

In this time we have never regretted choosing NZDDS, who provide us with an affordable solution to destroy our confidential documents. We have found their staff to be friendly when delivering or collecting their blue bins, always meeting our needs for handling our sensitive material. It was also pleasing to know that the bulk of the waste was recycled.

We do not have any hesitation in recommending them as your provider for document destruction.
